Measure to Continue Emergency War Tax For One More Year Passed By Both Houses.

Washington. - Congress adjourned on the night of Dec. 7 for the Christmas holidays after the Senate had adopted the joint resolution which passed the House extending the emergency revenue law one year, or until Dec. 31, 1916. Teh Senate adopted the resolution after a lively partisan debate, by a vote of 45 to 29. Democrats supporting it solidly and Republicans unanimously opposing it. Vienna Gives Full Support to Subma rine Commander That Sunk Ancona-Did His Duty.

Vienna.-The Austro-Hungarian admiralty is entirely opposed to any disavowal of the course of the submarine commander who was responsible for the sinking of the Italian steamer Ancona. On the contrary, it approves his conduct fully and declared that he would have been considered as having failed to perform his duty if he had allowed the Ancona to escape.

The reply to the American note, it s understood, will be delivered soon. Indications are that a pessimistic view of the situation is justified.

The admiralty has stated its case and attitude of the naval authorities as follows:

"It is a submarine commander's duty to make a report to the designated base as soon as possible and the commander who sank the Ancona did this as soon as he was within wireless distance of land. He made a supplementary report at Pola and accompanied it with his log. No examination of the crew was held because the commander's report was considered complete and there was no reason to suppose that the crew could add anything thereto.

"So far as the commander is concerned, his course is clear. The admiralty has received his report and sees no reason to find any fault with his course of action."

STATE DEPARTMENT FIRE PRE-VENTION GIVES RULES TO BE OBSERVED.

FINE SCHOOL FOR BRISTOL WARNS FARMERS OF AGENTS

Extension Department of State University Will Give Aid to Farmers in Buying Silos—News of Capitol.

The state department of fire prevention has issued a warning to the public in regard to the careless use of explosives during the Christmas holidays. In other words, the department invokes a safe and sane celebration. Some of the rules asked to be ob-

served are: "Do not use cotton to represent snow. If you must have snow, use asbestos fiber or mineral wood.

"Do not allow trees to remain in buildings after holidays; they are dangerous when they become dry. "Do not hang celluloid presents on

trees; they will explode when heated. Avoid other combustible presents, such as lace or embroidery, close to lights. "Do not give mechanical toys to children that require alcohol, gasoline, or other combustible oil, to operate. You may be the cause of a horrible death to one you love dearly by so do-

"Where are you going to put the boxes, excelsior and other inflammable packing material that comes with Christmas presents?"

Warning to Farmers.

What may be the means of saving the farmers over the state of hundreds of dollars-perhaps thousandsis the warning sounded by R. H. Murphy of the division of extension of the University of Tennessee. He urges the farmers to beware of "tricky agents," who go over the state with "the best silo made" for sale, and with other schemes for buying live stock. He says that many farmers have been deceived by such "artists" when, with a little vision of extension, such mis-

takes could have been avoided. The experts in the division of extension of the University of Tennessee are rendering valuable aid to the farmers over the state, and will gladly furnish information and assistance in selecting silos and in the selection of suitable breeds of pure-bred live stock to meet the needs of the farmers.
